October 4	9:00 am to 12:15 pm	Counseling on Access to Lethal Means (C.A.L.M.) Training	<p>Suicide is the second leading cause of death for young people ages 15 to 24 in New Hampshire and the tenth cause of death for those of all ages. We know that many attempters are as ambivalent about suicide as they are about life. One piece of that puzzle that has proven to be effective is to reduce access to lethal means - particularly firearms and medications. This workshop addresses why and how to do this. The workshop includes:</p> <ul style="list-style-type: none"> • PowerPoint presentations regarding why CALM is important • A model videotaped counseling session • Plus time for discussion and role plays. CALM is recognized on the SPRC/AFSP Best Practice Registry, Section III 	\$50	<p>The Mental Health Center of Greater Manchester (MHCGM)</p> <p>Conference Room</p> <p>5 Blodget St. Manchester, NH</p>	<p>For more information contact:</p> <p>Joann Batty MHCGM</p> <p>Phone: (603) 206-8609 Ext 5359</p> <p>Email: battyjoa@nhcgm.org</p> <p>Website https://www.mhcgm.org/events/calm-training/</p>

December 7	9:00 am to 4:30 pm	Behavioral Family Therapy (BFT)	Severe mental illness is often disruptive to the lives of people who experience its symptoms, and can also disrupt the lives of family members and supporters. BFT is a practice that engages family members, supporters, and the client themselves to better manage the problems that can come with the illness. This “one - family at a time” approach teaches and encourages the use of strategies that create a combined effort to improve the lives of all involved. Problem solving, communication skills, and mutual support are emphasized.	\$100	The Mental Health Center of Greater Manchester (MHCGM) Conference Room 5 Blodget St. Manchester, NH	For more information contact: Joann Batty MHCGM Phone: (603) 668-4111 Email: battyjoa@mhcgcm.org Website: https://www.mhcgcm.org/events/

Advocating Change Together

Advocating Change Together (ACT) started in 1979 in response to the growing concern that individuals with developmental disabilities were being isolated and excluded from decisions regarding their lives. ACT is a grassroots, member-controlled organization, run by and for persons with developmental and other disabilities. ACT has been successful in organizing persons with disabilities around common issues of concern because of a commitment to one premise: It is not the individual who must change to fit society, but rather, society and systems that must change to accommodate all people. Through our Common Vision workshops and Tools for Change educational materials, ACT works at both ends of the stream -- providing information, skill building, and leadership opportunities to individuals with disabilities and challenging institutional barriers, which limit full inclusion in society. Autism Speaks - Autism Treatment Network

There is an Early Childcare Provider's Guide to Managing Challenging Behaviors for children with Autism. This purpose of this guide is to better manage challenging behaviors in a childcare setting. It describes intervention strategies and positive behavioral supports to help class time go more smoothly. This guide also briefly describes Autism Spectrum Disorder (ASD), basic developmental milestones, and potential developmental red flags to monitor. Although the behavior techniques discussed in this guide are suggested to be used for children with ASD, they can be used for ANY child. Children with behavior problems that are similar to ASD in some ways can benefit from these interventions.

Imagine

The Imagine web page is dedicated to supporting people who experience disabilities and exhibit, what some have called, "difficult behaviors." In David Pitonyak's view, what's most needed when supporting someone who engages in difficult behaviors is *imagination*. If you will, the story line that is floating around about the person is a major part of the problem. What's needed is a new story.
